A gem in the Evanston, a thoughtfully planned custom built home. Total of 6 bedrooms (4 up, 2 down), LEGALLY developed suite and separate entrance in the basement for generating extra income. A large foyer with seating, an office / den on the main. The entertaining area contains a grand living room displaying a marble fireplace, built-in shelves and cabinets; dining room and a kitchen with granite counter tops, gas cook top, mounted oven, microwave and a centre island. On the deck, a hot tub, gazebo with mosquito mesh and whole set of patio set with cushions included. A flower bed next to the deck for gardening. One consideration is a low maintenance elevator from the heated garage to 2nd floor for seniors or specialty physical requirement. Upstairs, one of the four bedrooms is prepared as a gym room (equipment included). Bonus room and laundry room are lined up for comfort and convenience. The master bedroom has a good sized of bathroom and a walk-in closet. The basement suite has individual living space, two bedrooms, living & dining room, a kitchen, a bathroom and laundry set. This house is equipped with 2 furnaces, Air conditioner, extra roof vents to prevent condensation build up, solar panel and radon remediation rough-ins. The aggregate bound front drive way surface has a 20 year life. Near by has a large fun playground. Close to shopping, schools, exit to Stony Trail, schools.
