Welcome to Glacier Ridge, the new North West's premier community. This home is on a WALKOUT LOT with a full width deck spanning views of the foothills and beautiful farmland that neighbor Glacier Ridge. Boasting a 9' basement already roughed in for future potential development. Cedarglen's Frank model has optimized the open floor plan, with a main floor designed to keep the central upgraded kitchen as the beating heart of the home, and the Great Room nestled up front with spacious real estate, and a nook at the rear for more restful dining and conversation. The upper floor expertly crafts a three-bedroom space that allots privacy to the primary with a central bonus room complete with natural light. The house's interior selections have been curated by Cedarglen's Design Team, turning this new home into a Showhome.
