A rare opportunity to own in this well-maintained, friendly complex in Hawkwood. This beautiful two-bedroom walkout bungalow is a corner unit that features a flood of sunlight throughout the day. The open concept main floor features a large kitchen with granite counters and stainless steel appliances. The main floor also has a third bedroom that is currently being used as an office. The main floor features a stackable washer/dryer and massive living room with enough room for a large dining room table. A gas fireplace and balcony also highlight the main floor, along with a four-piece bath separate from the primary bedroom. The primary bedroom is large enough for a king bed and offers the privacy of a four-piece ensuite. Another very spacious family room can be found in the lower level, which has another large secondary bedroom and four-piece bath. It also features a gas fireplace and private patio. While there is plenty of storage in the two-car attached garage, this home also has a very generous storage room in the lower level, with an extra refrigerator for overflow items. The current owners had a new motor installed in the furnace and replaced the hot water tank. They also had all the Poly B plumbing removed from the home.
