The kitchen has been tastefully upgraded with granite countertops, stainless steel appliances, ample cabinetry, and a brand new dishwasher. Just off the kitchen is a cozy family room highlighted by a wood burning fireplace and three skylights that brighten the space throughout the day. From here you can step directly out to the private west facing backyard that is ideal for evening sun and outdoor gatherings. Also on the main floor is a flexible room that can serve as a home office, guest room, or additional bedroom, along with an updated two piece bathroom and a generously sized laundry room. The lower level is finished and provides additional living space that can easily function as a recreation area, games room, fitness space, or hobby room. There is also plenty of storage along with a dedicated wine storage area. Numerous mechanical and structural upgrades have already been completed including central air conditioning, a water softening and filtration system installed in 2017, dual furnaces installed in 2018, new windows and exterior doors installed in 2020, a

radon mitigation system installed in 2024, and a full underground irrigation system. Homes in this location rarely come available, offering a combination of space, extensive updates, and a prime setting within one of Calgary's most established west side communities.
