With a west-facing backyard and siding onto green space, 399 Coopers Drive SW delivers over 3,200 sq. ft. of developed living space with a layout that actually works for a busy household. The exterior is finished in durable Hardie board siding, and the backyard is fully fenced with a newer composite deck—perfect for taking advantage of the afternoon and evening sun. Stepping inside the front door, you’re greeted by a spacious front entry with a massive walk-in closet (a rare and genuinely useful feature), plus a dedicated main floor office. The kitchen is functional, featuring stone countertops, a large pantry, and new high-end appliances, all tied together with laminate flooring across the entire level. This home leans into entertaining, with a built-in speaker system that flows from the interior to the backyard deck. Upstairs, you’ll find FOUR generously sized bedrooms, including a primary retreat with a walk-in closet and a five-piece ensuite as well as a BONUS area and a 5-piece bath. The fully developed basement adds real flexibility—complete with a FIFTH bedroom, full bathroom, and a comfortable rec space with a wet bar and second fireplace. Central A/C, two hot water tanks, and a DOUBLE ATTACHED, HEATED garage are already in place. Located close to schools, shopping, playgrounds and pathways, with the added bonus of green space right next door, this is a solid, move-in-ready option in one of Airdrie’s most family-friendly communities.
