An incredible opportunity in Edgemont Estates with space, views and exciting potential for its next owners! This custom-built 1979 home offers a rare combination of size, layout and location, paired with valley and mountain views. Largely original, it's ready for its next chapter and an opportunity to bring your own style and vision. The upper level features all 3 bedrooms and 2 bathrooms. The primary bedroom includes a private ensuite, 2 closets and its own balcony overlooking the west-facing views. One of the additional bedrooms features beautiful wood panelling and a built-in bookcase that can easily be converted into a closet. The main floor offers a spacious kitchen and large composite deck off the kitchen, living and dining areas, a welcoming family room centred around a gas fireplace, and a conveniently located laundry room with a built-in laundry chute, a clever detail you'll wonder how you ever lived without. The fully developed walkout lower level is where the possibilities really open up. With its own exterior access, generous living space, wet bar, wood-burning fireplace, new cedar sauna and plenty of storage, the layout lends itself beautifully to multigenerational living or a potential future secondary suite, subject to City approval and permitting. Create private space for extended family or reimagine the level to suit your own needs. The yard is surrounded by established trees, with an all-seasons park and skating rink directly across the street. An attached double garage and RV parking pad add even more functionality. Many of the windows and patio doors have been replaced over the years, with additional features including main-floor air conditioning and a built-in vacuum system. This is your opportunity to see the possibilities, bring your vision to life and create a home that truly reflects your style and needs. With a versatile layout, incredible views

and an established Edgemont location close to parks, pathways, transit and the LRT, the foundation is here, the next chapter is yours to create. OPEN HOUSE — Sunday, August 23 | 1:00–4:00 PM
