The main floor features a spacious dining area, sunken living room with a gas fireplace, and an efficient kitchen complete with stainless steel appliances, double ovens, a double Fisher & Paykel dishwasher, granite countertops, an eating bar and dedicated coffee station. The lower level is fully carpeted and offers a large recreation room, two additional bedrooms, a 3-piece bathroom and laundry with a new washer and dryer installed in February 2026. The storage room also provides plenty of built-in cabinetry and shelving. Step outside to approximately 550 sq ft of double-tiered deck with dedicated dining and lounging areas, a piped-in gas fire pit and overhead mood lighting. There is still plenty of room for your BBQ setup, along with raised garden and flower beds. Storage is no issue with a massive 16' x 10' custom-built shed with corrugated metal siding featuring high ceilings and built-in shelving, plus an additional 3' x 6' mini shed off the deck. The property also offers a 20' x 24' oversized insulated double garage in the rear and a newer concrete driveway/parking pad. Recent updates include shingles in 2018, furnace and A/C in 2020, gutters in 2023, and washer/dryer in 2026.
