Conveniently located just minutes from major routes, schools, shopping, services, amenities and Nose Hill Park, this beautifully updated bi-level offers a combination of indoor and outdoor living that would be incredibly difficult to replicate. The standout feature is the remarkable backyard setting, highlighted by an impressive 1,000+ sq. ft. sunken courtyard that feels completely private. Multiple patios and entertaining areas are complemented by a built-in outdoor fireplace with chimney, hot tub, exterior lighting and plenty of surrounding green space. There is also a dedicated trailer/RV parking pad and a permanently affixed storage shed tucked into the rear corner of the property. Inside, the home offers four bedrooms, three bathrooms and a bright, open layout filled with large windows that bring in an abundance of natural light while maintaining an impressive sense of privacy. Warm, timeless finishes carry throughout the main living spaces, including wood flooring and a beautifully appointed renovated kitchen with a large island, built-in hutch, generous cabinetry and excellent sightlines into the living and dining areas. The main level features three bedrooms, two bathrooms and the convenience of main-floor laundry with an additional refrigerator. From here, you can also walk directly out to the sunken courtyard, creating a seamless connection between the home and its incredible outdoor spaces. Downstairs adds even more versatility with a fourth bedroom, third bathroom, second fireplace and a dedicated media room complete with a built-in projector and integrated tech bank. The home's unique design also provides two separate interior access points from the double attached garage—one leading directly into the lower level

and another connecting to the rear courtyard. And the garage is a destination of its own. Finished as the ultimate man cave, she shed or workshop, it features parquet-style checkered flooring, extensive built-in cabinetry, heat, water and sink, plus a Gladiator wall-storage system.
